

Installing Exposé 2.0:

REQUIREMENTS for Exposé: Microsoft Windows and Office 2000 and up, Office Web Components 10 (owc10.exe) and Microsoft MSXML 4.0.

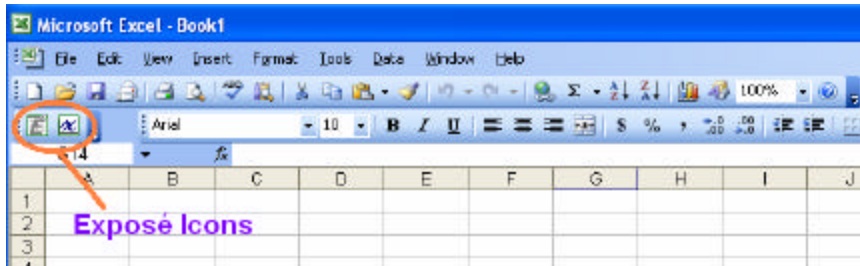

1. Before you install Exposé 2.0, download and install Office Web Components --owc10.exe-- from Microsoft website at:
<http://www.microsoft.com/downloads/details.aspx?FamilyID=982B0359-0A86-4FB2-A7EE-5F3A499515DD&displaylang=en>

and download and install MSXML 4.0 (Service Pack 2) – from Microsoft website at:
<http://www.microsoft.com/downloads/details.aspx?FamilyID=3144b72b-b4f2-46da-b4b6-c5d7485f2b42&DisplayLang=en>

2. Click on Setup.Exe in the Exposé installation folder.

3. Enter your Serial Number to continue the installation.

3. After a successful installation, Exposé adds two icons in the MS Excel toolbar as shown in the figure below.

* If you see only one icon, in MS Excel menu bar click on Tools → Add-ins and then brows to:

C:\Program Files\Attune Group\Exposé

and select NRFcnCtrl.dll. In order to see the file, change "Files of type" to "All Files (*.*)".

4. There is a user guide for the earlier version of Exposé along with several Examples of spreadsheet models. You can find the user guide and the examples in Start menu → All Program → Exposé.

5. Contact support@attunegroup.com if you have any problems in installing and/or working with Exposé.
